PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/577,573	Applicant(s) OJIMA, IWA0	
	Examiner Raymond Covington	Art Unit 1625	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-71 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Reference to SB-T- taxoid compounds it not clearly defined. It is suggested that the compound structures be inserted.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-71 are rejected under 35 U.S.C. 102(b) as being anticipated by Shashoua et al US 5795909.

Shashoua et al teach conjugates of cis-docosahexanoic acid (omega 3 fatty acid) and taxanes used to treat cell proliferative disorders. See claim 7.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-71 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shashoua et al US 5795909.

Shashoua et al teach conjugates of cis-docosahexanoic acid (omega 3 fatty acid) and taxanes used to treat cell proliferative disorders. See, for example, claim 7, and column 7 lines 35 to column 8 line 7 and example 7. Omega 3 fatty acids are known to be combinable with taxanes to produce conjugates; and taxanes are known to treat cell proliferation. Replacement of a compound with another compound belonging to the same class, in this instance taxane and omega 3 fatty acids, is well within the ordinary skill of one in this art as the results, combining a taxane and an omega 3 fatty acid to arrive at a conjugate, would not have been unexpected.

No claim is allowed,
